DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I: Claims 1-10 and 24-30, drawn to a printed indicium comprising a first section having a first ink having a first color; and a second section comprising a second different ink, wherein the second ink comprises a fluorescent ink, etc; which classified in class 235, subclass 468.

Group II: Claims 11-23, drawn to a system and method for printing an indicium on an item, the system comprising a print head system adapted to print at least two different inks onto the item; and a controller for controlling application of the first and second inks by the print head system, etc; which classified in class 235, subclass 375.

2. The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of Group I has separate utility such as it can be used without the specific need of a system for printing an indicium, the system comprising a print head system, and a controller, etc. See MPEP § 806.05(d). Furthermore, Group II has separate utility such as it can be used without the specific need of a printed indicium comprising a first section and a second section.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2876

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
